

RE: CG Docket No. 03-123  
Federal Communications Commission (FCC)  
445 Twelfth Street SW  
Washington, DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

A handwritten signature in dark ink, appearing to read "Kenneth W. Delson".

Washington, DC 20554

May 30, 2007

Dear Chairman Martin, Commissioners Adelstein, Copps and Tate:

We are deaf people and we use Video Relay Service, IP Relay or TTY to communicate. We are writing to thank you for supporting services that meet the communications needs of the deaf and hard-of-hearing community, and to urge you to increase rather than cut the rate for these vital services. We, together with many other deaf people, their families and coworkers, depend on VRS and other relay services to communicate with hearing people and other deaf people.

We should be encouraging more deaf people to use VRS. Deaf people use these services as part of their work and part of their lives. We urge you to do everything you can to make VRS and other relay services available to the many deaf people who do not currently know they are available.

FCC has mandated improvements in VRS, and we applaud those improvements. We urge you to provide adequate funding to support continued improvement to VRS, and to support outreach to more people in the deaf community.

Increase funding for VRS and other relay services, don't cut it.

Sincerely,  
Jonelle and John Vargo  
681 W. Ash Ridge Drive  
Green Valley, AZ 85614

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

*Ralph Abner*

FCC MAIL ROOM

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate

I am an ASL student at Camas, Washington. I was shocked to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting the VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people. I, and many of my peers who are also in ASL class know that the VRS is very helpful to the deaf people in our community and everywhere else. They use it in their work and in their personnel life. It makes communicating so much easier. It is crucial for both hearing and deaf individuals. I strongly urge you to do everything that you can to make the VRS available to the many deaf people who do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- 1) Serve more deaf people, not discourage them from reaching out to more deaf people.
- 2) Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities.
- 3) Provide service and technology improvements such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services.

Deaf people and their families depend on VRS and other relay services. Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

*Destinee Helmer*

RE: CG Docket No. 03-123

**Federal Communications Commission (FCC)**

445 Twelfth Street SW

Washington, DC 20554

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a deaf person and I use Video Relay Service (VRS) to communicate. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate with both hearing and deaf individuals. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities
- Provide service and technology improvements, such as the development of new videophone equipment, fulfilling the Americans with Disabilities Act (ADA) mandate of functionally equivalent telecommunications services

I, along with other deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,

FCC-MAILROOM

**RE: CG Docket No. 03-123; TRS Fund – Drastic VRS Rate Cuts**

Dear Chairman Martin, Commissioners Adelstein, Copps, McDowell, and Tate:

I am a hearing person and use Video Relay Service (VRS) to communicate with other deaf and hard-of-hearing individuals. I was appalled to learn that the FCC staff is intent on drastically cutting the VRS rate, and effectively cutting VRS availability for the deaf. Instead of seeking to limit the number of deaf people with VRS access, the FCC should do everything in its power to make VRS available to more deaf people.

I, along with other hearing and Deaf individuals, use these services in both my work and personal life. It is an important way in which I/we communicate. I urge you to do everything you can to make VRS service available to the many deaf people who currently do not have access to this vital, life-changing service.

The VRS rate should encourage the VRS providers to:

- Serve more deaf people, not discourage them from reaching out to more deaf people
- Provide interpreter training programs so that there will be an adequate number of qualified interpreters for VRS and the local Deaf communities - Improve service and technology so the mandate of the Americans with Disabilities Act (ADA) for functionally equivalent telecommunications services is met

I, along with other hearing and deaf individuals, their families and coworkers, depend on VRS and other relay services.

Please stop any VRS program cuts and fulfill the mandate of the Americans with Disabilities Act (ADA) to provide deaf people with functionally equivalent telecommunications services.

Sincerely,
